## Sports Rack<sup>TM</sup>

### SofTop Cargo Bag

#### Installation instructions:

Before the SofTop<sup>TM</sup> Cargo Bag can be mounted to the roof of your vehicle, make sure the surface is clean and dry, remove any dirt before mounting the SofTop<sup>TM</sup> Cargo Bag. Align the SofTop<sup>TM</sup> Cargo Bag on the center of the roof with the zippers facing the rear and to both sides. **There should be no zipper facing forward.** The straps will connect to the front, rear and side cross bars.

1. To secure the SofTop<sup>TM</sup>, loop the straps around roof rack and secure with buckle.
2. Repeat step 1 for all 8 straps if possible on your roof rack for a secure hold.
3. **It is very important to keep the bag tight and very full to reduce the flapping action from the wind.**
4. Remember! This product is water-repellant, not completely waterproof. The wind can drive the rain water through seams and zippers. Therefore protect your dry goods by storing them in waterproof containers when placing your cargo in this product.

#### Diagram: How to secure Straps

Occasionally check the loaded Cargo Bag to insure it is secured and riding properly. Do not leave an empty Cargo Bag on the roof when driving.
